

Demonstration of Proposed Features

Date	3 July 2026
Team ID	SWTID-2026-2260
Project Name	Smart Lender
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Loan Eligibility Prediction	Predicts whether a loan applicant is eligible using the trained XGBoost Machine Learning model.	Implemented	Yes	Successfully predicts loan eligibility.
2	User-Friendly Web Interface	Provides a responsive Flask-based web interface for entering applicant details.	Implemented	Yes	Smooth and interactive user interface.
3	SQLite Database Integration	Stores applicant information and prediction results securely in the SQLite database.	Implemented	Yes	Data stored successfully for future reference.
4	Email Notification	Sends the loan eligibility prediction result to the applicant's registered email address automatically.	Implemented	Yes	Email notifications sent successfully using Gmail SMTP.
5	Data Validation	Validates user input before processing the prediction to ensure data accuracy.	Implemented	Yes	Prevents invalid or incomplete input submissions.
6	Machine Learning Model Integration	Integrates the trained XGBoost model into the Flask application for real-time prediction.	Implemented	Yes	Model successfully deployed and tested.

Feature Implementation Summary:

Total Features Proposed	6
-------------------------	---

Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
