

Project Demo Planning

Date	3 July 2026
Team ID	SWTID-2026-2260
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the project, objectives, and the need for AI-based loan eligibility prediction.	2	Team Member 1
2	System Architecture	Explain the project workflow, technologies used, and machine learning model.	3	Team Member 2
3	Live Web Application Demo	Demonstrate the Flask web application by entering applicant details and predicting loan eligibility.	5	Team Member 3
4	Database & Email Demonstration	Show how applicant details are stored in the SQLite database and how email notifications are sent automatically.	3	Team Member 4
5	Project Features & Benefits	Explain the implemented features, advantages, and future enhancements of the application.	2	Team Member 5
6	Conclusion & Q&A	Summarize the project and answer questions from the evaluation panel.	2	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the importance of automating loan eligibility prediction using Machine Learning.
2	Solution Overview	Describe the system architecture, dataset, XGBoost model, Flask application, SQLite database, and email notification module.

3	Live Feature Demonstration	Demonstrate user registration, loan prediction, database storage, and email notification with real-time execution.
4	Q&A Session	Clarify technical questions related to machine learning, Flask integration, database management, and project implementation.
