

Team Involvement in Demonstration

Date	3 July 2026
Team ID	SWTID-2026-2260
Project Name	Smart Lender
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Names	Role	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Hebbanivedartham Divyasri	Data Analysis & Preprocessing	Dataset Collection, Importing Dataset, Data Preprocessing	Explained dataset collection, data import, preprocessing, handling missing values, and data preparation for model training.	Active
2	Kasula Sathvika	Machine Learning Developer	Exploratory Data Analysis (EDA), XGBoost Model	Presented univariate and multivariate analysis, feature scaling, XGBoost model building, and explained why XGBoost was selected as the final model.	Active
3	Reddimalli Ruthika	Model Evaluation & Deployment	Train-Test Split, Model Evaluation, Model Saving	Explained dataset splitting, model evaluation metrics, saving the trained model, and deployment overview.	Active
4	Likitha Surya Kamakshi Manem	Front-End Developer	HTML Pages & User Interface	Demonstrated the Smart Lender web interface, loan application form, and user interaction with the application.	Active

5	Gurram Sirisha	Application Developer	Flask Application & Workflow	Explained application architecture, Flask integration, workflow, prediction process, database storage, and email notification functionality.	Active
6	Entire Team	Project Demonstration & Q&A	Final Demonstration	Demonstrated the complete Smart Lender application, answered evaluator questions, and explained future enhancements and scalability.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Reddimalli Ruthika
Overall Team Coordination Rating (1-5)	5/5
Any issues during demo	Minor integration and deployment issues were encountered during testing.
How issues were resolved	Team members collaborated to debug the application, verified the model integration, and successfully completed the demonstration.
